### Education

#### Bangkok University

Bachelor of Science in Computer Science (Information Technology and Innovation)

- **GPA: 3.84 / 4.00 (First Class Honors)**
- **Relevant Coursework:** Data Structures, Database Systems, Web Development, Data Science.

### PROFESSIONAL SUMMARY

Computer Science graduate from **Bangkok University (1st Class Honors)** with 5 months of internship experience as a **Frontend Developer** at Geekstart. Proven ability to transform UI/UX designs into high-quality, functional web applications using **React** and **Material UI**. Passionate about building dynamic systems and eager to expand expertise into **Full-stack** and **Data-driven** development.

### WORK EXPERIENCE

#### Frontend Developer Intern | Geekstart

January 202X4- May2024 (5 Months)

- **Translated complex UI/UX designs** into responsive web components using **React** and **Material UI**, ensuring 100% design fidelity.
- **Developed and optimized** website functionalities, utilizing **Lodash** for efficient data manipulation.
- **Collaborated** with the development team via **Bitbucket** and participated in Agile workflows managed through **Trello**.
- **Maintained seamless communication** in a remote environment using **Gather** and **Google Meet** to meet project deadlines.

### SELECTED PROJECTS

#### OPH BU – Dynamic Exhibition Web Application

Full-stack Developer (Capstone Project)

- **Engineered a Dynamic CMS** that allows administrators to customize website content, images, and themes in real-time.
- **Integrated Line Messaging API** to create a seamless dual-channel registration system (Web + Line).
- **Designed and managed** the user database to track participant information and exhibition analytics efficiently.
- **Tech Stack:** React, Node.js, MySQL, Firebase, Line API, CSS3.
